KALAMAZOO LISTS TODAY ON ASX

After its successful capital raise of \$5M, the Board of Kalamazoo Resources Limited is pleased to announce that the Company (ASX: **KZR**) ("**Kalamazoo**") listed on the Australian Securities Exchange today. We would especially like to thank all of our shareholders for their support which has enabled us to get to this next exciting stage in Kalamazoo's growth.

With this capital raising, the Company will immediately progress its previously outlined exploration and development initiatives at the Snake Well Gold Project, with an early focus on:

- Drilling and development works at the A-Zone gold deposit, commencing in the next few weeks;
- Finalising the Minjar Ore Purchase Agreement for gold ore mined and recovered from the A-Zone gold deposit; and
- Drilling of the near surface extensions of the Mixy gold deposit and initial drill testing of the Royal Standard gold deposit.

These initiatives are intended to continue to produce ongoing cashflow while exploring to grow Kalamazoo's assets and resources. We will continue to keep the market informed as we progressively complete each phase of these programs.
